

M1 Fleet Enterprise Installation to a GoDaddy Server

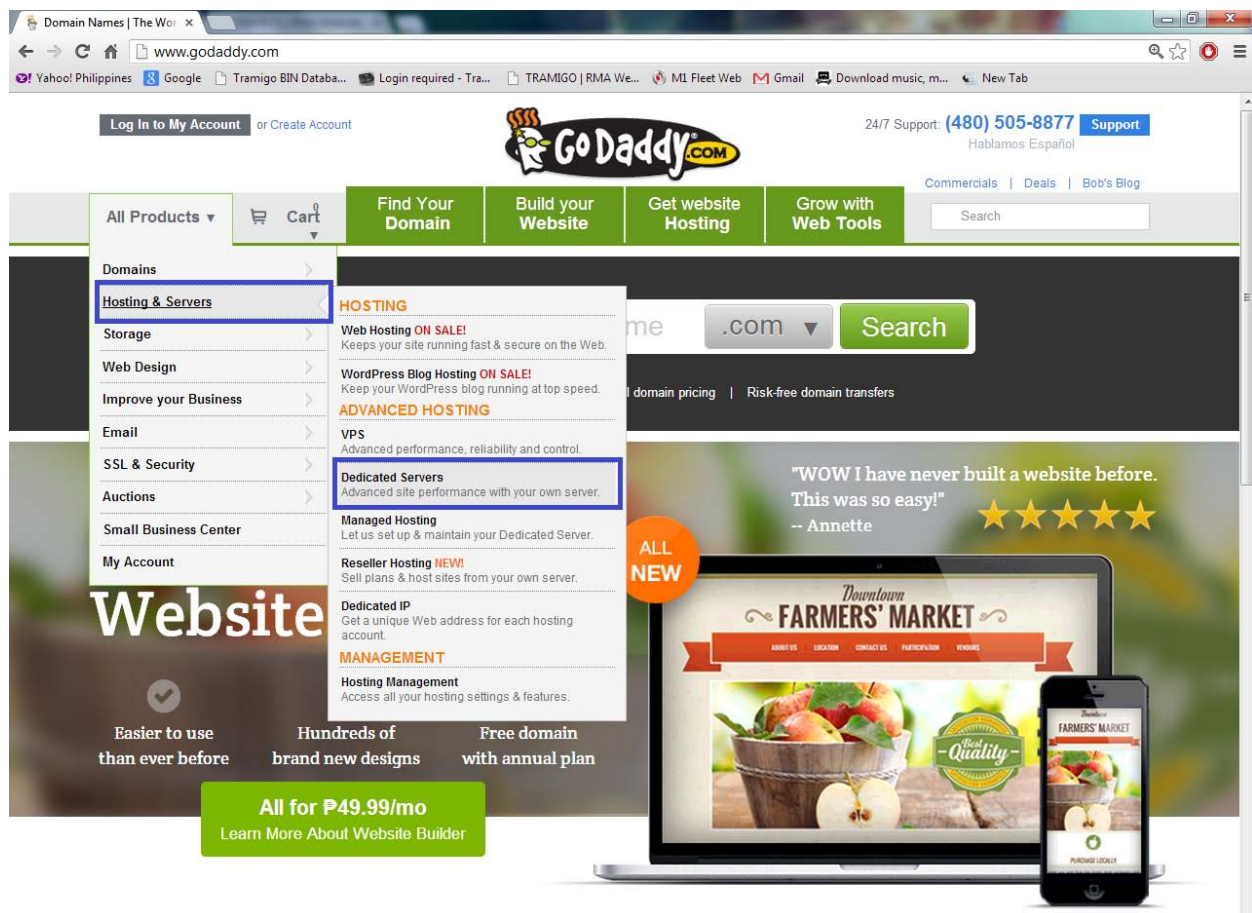

For more information. Email: support@tramigo.com

GoDaddy is one of the many 3rd party server hosting companies. As a service provider, one can choose GoDaddy to install M1 Fleet Enterprise Server components for their customers' use. **Below is a sample instructions on purchasing a dedicated server on GoDaddy to deploy M1 Fleet Enterprise.**

NOTE: There is a 10 GB limit in SQL Server 2008 Express R2. GoDaddy is not directly connected with Tramigo and support to GoDaddy related products must be addressed directly to GoDaddy.

THE SCREEN SHOTS HERE MIGHT DIFFER FROM ACTUAL GODADDY WEBSITE BECAUSE THEY MIGHT CHANGE THEIR WEBSITE LAYOUT FROM TIME TO TIME. FOR FURTHER HELP ON PURCHASING DEDICATED SERVER PLEASE CONTACT GODADDY TECHNICAL SUPPORT.

- 1.) Go to <http://www.godaddy.com>
- 2.) Click All Products, choose Hosting and Servers then click Dedicated Servers.

M1 Fleet Enterprise Installation to a GoDaddy Server

For more information. Email: support@tramigo.com

- 3.) Select Windows operating system and choose what Package plan you will get for the M1 Fleet Enterprise Server. Basically the Economy Package is enough to run M1 Fleet Enterprise data for 1000 devices, 100 parallel connected users accessing data and up to 3 years enough storage. You can basically refer to this assumption to choose your own plan.

The screenshot shows the GoDaddy website for dedicated servers. The browser address bar indicates the URL is www.godaddy.com/hosting/dedicated-servers.aspx?ci=9014. The page title is "Dedicated Servers | Fully C x". The main heading is "Dedicated servers — all to yourself and under your command." Below this, a paragraph describes the features of the dedicated server plans, including lightning-fast processors, up to 16 GB of RAM, 20 TB of bandwidth, and Intel Core i3/i5/i7 processors. The page then presents a "Select an operating system" section with tabs for CentOS, Ubuntu, Fedora, and Windows. The Windows tab is selected, showing a description of the Windows Version 2008 R2 x64 servers. Below this, there are six server package options: Economy, Deluxe, Premium, Value Deal, Power Player, and Memory Hog. Each package lists its specifications (OS, CPU, RAM, Storage, Bandwidth) and a "Choose Your Term" dropdown menu. The Economy package is highlighted with a yellow background.

Dedicated servers — all to yourself and under your command.

Our dedicated server plans feature lightning-fast processors, up to 16 GB of RAM, 20 TB of bandwidth, and Intel Core i3/i5/i7 processors, all backed by the best service and support in the industry, available LIVE 24/7. With our **exclusive Server Concierge**, you don't have to worry about setup — our team of experts will help get your server up and running fast! Choose the plan that's right for you, then customize it to meet your unique needs with even more bandwidth, control panel options, backup plans, firewall protection and more.

Select an operating system

Our Windows Version 2008 R2 x64 servers combine the familiar interface of the world's most popular operating system with an extensive set of high-powered features.

- 4.) Upon choosing the appropriate plan for your needs. You can configure the selected plan based on what additional server administration you need.

Note: For workgroup edition of GoDaddy, license is worth 75 USD.

The screenshot shows the GoDaddy website interface for configuring a Windows Dedicated Server — Economy plan. The page includes a navigation bar with links like 'Log In to My Account', 'Find Your Domain', 'Build your Website', 'Get website Hosting', and 'Grow with Web Tools'. The main content area is titled 'Windows Dedicated Server — Economy' and includes a 'Backup' section with options for FTP Solution and Managed Backup Services. A 'Bandwidth' section offers additional bandwidth options. A 'Control Panel' section is also visible. On the right, an 'Order Summary' box displays the total price of ₱4,729.99 per month and a 'Proceed to Checkout' button.

Backup

Protect your data against accidental loss. Back your data up on your own or let us do it for you with one of our managed backup plans.

FTP Solution - Manual backup option visible only from your dedicated server.

- ☒ No backup
- ☐ 20 GB FTP backup: ₱219.99/mo
- ☐ 100 GB FTP backup: ₱859.99/mo
- ☐ 300 GB FTP backup: ₱1,289.99/mo
- ☐ 600 GB FTP backup: ₱3,009.99/mo
